## How To Hold Anthony Fauci “Accountable”

By Paul S. Gardiner

May 25, 2024

Another criminal referral to the US Department of Justice (DOJ) soon may be made by members of the US Congress to investigate Dr. Anthony Fauci for lying under oath to Congress which is a felony crime. Representative Jim Comer, Chairman of the House Committee on Oversight and Accountability, soon may follow [Senator Rand Paul](#) in requesting the DOJ to criminally investigate Fauci for lying under oath to Congress.

But lying to Congress does not even begin to compare with nor address the horrendous amount of suffering and death caused by the toxic health care policies and hospital protocols developed and promulgated by Anthony Fauci and many of the officials listed herein. **In this regard, these officials bear “superior responsibility” for the health care policies and toxic protocols that killed tens (hundreds?) of thousands of Americans during the recent COVID-19 pandemic.**

Rather than hope for a bona fide DOJ investigation of Anthony Fauci and other high-ranking officials for alleged federal crimes, efforts are underway at the state level in Florida, Texas, and Louisiana to have criminal investigations conducted based on violations of state criminal codes. If the investigations establish sufficient probable cause of crimes being committed, then the accused individuals can and should be indicted and prosecuted to the full extent of state law.

Each of the legal briefs described herein contains extensive evidence of state crimes committed. The briefs include numerous hand-written letters submitted by aggrieved next-of-kin family members requesting the criminal investigations. Contact information for details about COVID-19 victims in each of the three states is also provided.

The Florida, Texas, and Louisiana attorneys general and district attorneys need to honor their citizens’ requests for justice and accountability for the deaths of their loved ones. Further, these public officials swore an oath to stand for justice and protect the rights and lives of their respective citizenry. Now is the time for these public servants to courageously, rightly pursue truth and justice on behalf of their aggrieved citizens and their lost loved ones.

Below is a brief summary of the Florida, Texas, and Louisiana legal briefs:

**FLORIDA:** In October 2023, a [20-page legal brief](#) with exhibits was submitted by attorneys, including an ex-prosecutor, to the Florida Attorney General and the Florida Department of Law Enforcement. The extensive legal brief requests investigation and subsequent indictment and prosecution of the below named individuals for alleged state-wide covid-related criminal offenses committed against tens of thousands of Floridians. *To date, little, if any, action has been taken on this request.*

The request was made on behalf of the next-of-kin relatives of 32 victims in Florida who request investigation into the deaths of their loved ones under toxic COVID-19 hospital protocols, intentional COVID-19 infection mismanagement, and suppression and denial of life-saving treatments in Florida hospitals, nursing homes, and other facilities.

The criminal referral requests (to be sent to Texas Attorney General Ken Paxton) were submitted to the district attorneys for Angelina, Bexar, Brazos, Collin, Cooke, Dallas, Fort Bend, Galveston, Guadalupe, Grayson, Gregg, Harris, Hays, Johnson, Lubbock, Montgomery, Smith, Tarrant, Tom Green, Travis, and Wise counties. *Current status of the referral requests is unknown at present.*

The requests were made on behalf of the next-of-kin relatives of 46 victims in Texas who request investigation into the deaths of their loved ones under toxic COVID-19 hospital protocols, intentional COVID-19 infection mismanagement, and suppression and denial of life-saving treatments in Texas hospitals, nursing homes, and other facilities.

The accused include the same individuals in the above Florida filing with the addition of the following officials:

- Robert Redfield, ex-Director, CDC

In response to their requests, attorneys have prepared an extensive 30-page legal brief with exhibits that soon will be submitted to the Louisiana attorney general and applicable district attorneys.

The accused include the same individuals listed in the Florida and Texas legal briefs.

**A FINAL THOUGHT:** The late evangelist Billy Graham once said: “Courage is contagious---when a brave man takes a stand, the spines of others are often stiffened.” America desperately needs at least one brave prosecutor to lead in courageously pursuing truth and justice on behalf of the hundreds of thousands of aggrieved next-of-kin families who wrongfully lost loved ones during the recent COVID-19 pandemic.
